

ELECTRIC JOB SAFETY BRIEFING FORM		Date: _____
911 Address/Coordinates	TASK: _____	Work Order # _____
		CIRCUIT # _____
LEVEL 1 Before You Leave (check each item discussed or completed)		
☐ Job Packet Review ☐ Boom Inspection/Operation Verified ☐ Traffic Control Needs ☐ Route/Backing Discussion	☐ Route/Travel Plan Discussion ☐ Circle of Safety/Spotter Required? ☐ Tools & Equipment Inspection ☐ Tools & Equipment Secured	☐ PPE Needs Environmental Hazards ☐ Heat ☐ Cold ☐ Wind ☐ Rain ☐ Snow ☐ Ice ☐ Fog ☐ Other _____
Loading/Securement Steps	Potential Hazards	Hazard Control Measures
☐ No Substantial Material Loading Required		
JULIE # _____ Dig By/Expiration _____		
Identify Hazards and Communicate	Steps to Injury Prevention	Keep Eyes on Path and Task
Stay Out of the Line of Fire	Select the Best Tool and Equipment	Work in Your Power Zone Help Your Co-Worker
LEVEL 2 Two Minute Walk Down Upon Jobsite Arrival (check all that apply)		
☐ Walking/Working Surfaces ☐ Plants/Animals/Insects ☐ Public Safety Concerns ☐ Security Concerns ☐ Health Concerns	☐ Truck/Equipment Positioning ☐ Use of Spotters ☐ Temporary Traffic Control/Flagger ☐ Wheels Chocked ☐ Outrigger Cribbing/Pads	☐ Contractor Activity ☐ U/G Utilities Marked ☐ Night Time Work ☐ _____ ☐ _____
LEVEL 3 Hazard Identification, Work Procedures and Safe Work Practices (check all that apply)		
☐ Three-Way Communication ☐ Hold-Off ☐ Truck Hold-Off ☐ WPA ☐ Clearance # _____ ☐ Out of Service ☐ Restraint ☐ Local Control ☐ Hazard # _____ SAWS # _____ ☐ 4KV ☐ 13.2KV ☐ 69KV ☐ Secondary ☐ 12KV ☐ 34KV ☐ Other _____ ☐ Backfeed/Solar/Wind Sources ☐ Personal Protection ____ Equipotential Grounding ____ Isolation Work Method ____ Insulation Work Method	☐ Energized Work ____ Designated Observer _____ ____ 4 Foot Primary/MAD ____ Cover-Up Barriers ☐ Line/Equipment Tested ☐ Equipment Grounding ☐ Vehicle Grounding ☐ High Voltage Testing ☐ Paralleling/Phasing Guidelines ☐ Cut-Outs/Insulators ☐ Pole Handling/Critical Lifts ☐ Aerial Lift Safety ☐ Confined/Enclosed Space ☐ Manholes/Vaults ☐ Excavation - Use Soils Checklist ☐ Task Specific Stretching ☐ Other _____	
Pole Climbing Is pole climbing required? ☐ Yes ☐ No If yes, the following inspection procedures must be used: Visual Inspection + Hammer Test (Sounding) + Screwdriver Test (Probing) + Rocking Test Do not climb a pole that has failed any of the tests above or if the pole cannot be adequately tested		
PPE Required to Safely Complete the Task		☐ Personal Protective Equipment Requirements Discussed
Hard Hats, Safety Glasses (Dark/Clear), High-Vis Apparel, Proper Footwear, Goggles/Face Shield, Gloves (Work/Cut Resistant), Hearing Protection, PVD, Ice Cleats Fall Protection Harness/SRL, Arc Flash Apparel, Rubber Insulating Gloves (or G/S) worn over long sleeve FR shirt, Other _____		
Ergonomics Can the work be performed in the Power Zone (shoulder to mid-thigh level)? ☐ Yes ☐ No		
If no, then which of the following applies: ☐ Adjust the Work ☐ Adjust Body Position ☐ Rotate Job Tasks		

LEVEL 3

Before Starting Work Identify Job Steps, Potential Hazards, and Control Measures

☐

Gravity

Suspended Load

☐

Motion

Mobile Equipment/Traffic with Workers on Foot

☐

Gravity

Fall from Elevation

☐

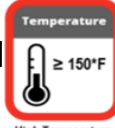

Motion

Motor vehicle incident (occupant)

☐

Temperature

High Temperature

☐

Temperature

Fire with Sustained Fuel Source

☐

Pressure

Excavation or Trench

☐

Mechanical

Heavy Rotating Equipment

☐

Pressure

Explosion

☐

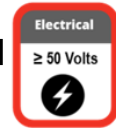

Temperature

Steam

☐

Chemical/Radiation

High Dose of Toxic Chemical or Radiation

☐

Electrical

Electrical Contact with Source

☐

Electrical

Arc Flash

High Energy Hazards

Identify and discuss High Energy Hazards that exist on this jobsite

Basic Job Steps		Job Step Hazards/Potential Hazards	Hazard Control Measures
Identify basic job steps required to set-up, complete task, and clean-up jobsite		List existing or potential hazards, including high energy hazards , that could directly harm Co-workers	Methods for protecting/eliminating/replacing/ substituting each identified hazard
Set-up			
Tasks			
Clean-up			

- ☐ Everyone understands that All Co-workers Have Stop Work Authority
- ☐ Everyone understands that Substantial Changes in the Work or Work Environment Impacting Co-Worker Safety Require a Re-Brief
- ☐ Everyone understands the Emergency Action Plan for this Worksite Including Roles & Responsibilities

Sign In Sheet - Anyone working, or entering the jobsite must be briefed on the relevant hazards and sign to indicate this was completed					
Signature	Emp ID	Time	Signature	Emp ID	Time

LEVEL 4

Document Final Job Steps, Successes, Improvements, and Best Practices

☐ Post Job Review

☐ WPA/Hold Orders Released

☐ Travel Plan

☐ Final Circle of Safety/Spotter

☐ Grounds Removed

☐ Cargo Securement

☐ Use of Spotter at OC

☐ No Issues During Job

☐ Re-Brief Necessary? (explain)

☐ Stop Work Authority Used (explain)

What went well? What needs improvement? Best Practices?
